Width: 36" Natural Cork Wallcovering
Roll Length: 4 linear yards
Packaged: Double Rolls
Backing: Paper

Fire Hazard Classification Results:

Class A Fire Rated: ASTM E-84 Tunnel Test
Flame Spread: Pass
Smoke Developed: Pass

Notable Facts:

These cork items are a Specialty Product that should be used in unique areas.
Not recommended for high traffic areas.
Avoid high moisture/humidity areas. Cork is a natural product and is very porous. Moisture can cause mold or mildew and cause the edges of the cork squares to curl away from the backing.
When installing, any paste or water on the surface will stain.
Avoid prolonged exposure to direct sunlight.
The color of the cork may change slightly over time due to oxidation.
Do not crease. Cork will crack if tucked or wrapped into or around corners. Must cut cork at all corners when installing.
This is not a surface washable wallcovering. To clean, wipe with a dry, lint-free cloth or vacuum.
